Notes:

- 1) "Active Documents" is the default selection when you first open the Search screen. It returns all documents in the active database.
- 2) Selecting "Archived Documents" returns documents that are not in a "workable" status - received and void - and are stored in the archived database.

Please note that the CAGE Code is the only required field on this page.

However, please enter as much information as possible to narrow down your search results.

Search results are based on documents worked within the last 30 days. To retrieve documents outside this range provide specific date ranges as search criteria even if you entered a specific contract and/or shipment number. The minimum age of documents in the Archive is based upon their status when they were archived. See the SUM for clarification on archive dates.

The "Search Criteria - Shipper Property Documents Folder By DoDAAC" page is displayed.

Return Help

Recap:

The following columns allow you to take some 'action' on a document:

- 1) Purge:
Remove the 'working copy' of the document and restore the document in the workflow with the previous status.
- 2) Recall:
Opens the document and enables you to work on it. After you resubmit it, it is moved to the Receipt Folder and has a status of "Resubmitted."
- 3) Void:
Status changes to "Void" and no action can be taken on the document. A voided Property document will be archived after 90 days.
